## Objective

Senior computer science student looking for new grad or summer intern roles in technical writing, technical editing, UX writing, content strategy, or documentation management.

## Experience:

### **Student Patent Technical Writer – WSU Office of Tech Transfer and Commercialization**

*Wichita, Kansas: October 2024 – present*

- Learning about and gaining experience in intellectual property as part of the Gateway to IP student program, including drafting patent applications and researching prior art.

### **Technical Writing/Editing Intern – Texas Instruments**

*Dallas, Texas: May 2024 - August 2024*

- Collaborated with engineers on creating, revising, and publishing content for ti.com.
- Performed a data sheet analysis to determine how TI could improve them.
- Assisted with updating internal Tech Docs training materials.

### **Technical Writing Intern – INTRUST Bank**

*Wichita, KS: May 2023 - May 2024*

- Wrote and edited internal documentation for the Technology department.
- Helped develop a department-wide document template, doc life-cycle process, and central repository, and updated documents to the new look.

## Skills and Knowledge:

- **Authoring Tools:** DITA XML, Oxygen, SDL Tridion, HTML, CSS
- **Software:** Microsoft Office (Word, Visio), Confluence, Jira, Photoshop, Figma, Tableau/Power BI, Da Vinci Resolve
- **Programming:** Python, SQL, C++, Git, GitHub

## Education:

### **Bachelors in Computer Science – Wichita State University**

*August 2021 – present (transfer student from Butler Community College)*

- Graduating Spring 2025.
- 3.863 GPA.

### **Technical Writing Certificates – Butler Community College/JEROnline**

*Fall 2022 – Spring 2023*
