Objective

Senior computer science student graduating in Spring 2025 looking for new grad roles in technical writing/editing, UX writing, or documentation management.

Experience:

Student Patent Technical Writer – WSU Office of Tech Transfer and Commercialization
Wichita, Kansas: October 2024 - present
- Learning about and gaining experience in intellectual property as part of the Gateway to IP student program, including drafting patent applications and researching prior art.

Technical Editing Intern – Texas Instruments
Dallas, Texas: May 2024 - August 2024
- Collaborated with engineers on creating, revising, and publishing content for ti.com.
- Performed a data sheet analysis to determine how TI could improve them.
- Assisted with updating internal Tech Docs training materials.

Technical Writing Intern – INTRUST Bank
Wichita, KS: May 2023 - May 2024
- Wrote and edited internal documentation for the Technology department.
- Helped develop a department-wide document template, doc life-cycle process, and central repository, and updated documents to the new look.

Skills and Knowledge:

- **Authoring Tools:** DITA XML, Oxygen, SDL Tridion, HTML, CSS
- **Software:** Microsoft Office (Word, Visio), Confluence, Jira, Photoshop, Figma, Tableau/Power BI, Da Vinci Resolve
- **Programming:** Python, SQL, C++, Git, GitHub

Education:

Bachelors in Computer Science – Wichita State University
August 2021 – present (transfer student from Butler Community College)
- Graduating Spring 2025.
- 3.858 GPA.

Technical Writing Certificates – Butler Community College/JEROnline
Fall 2022 – Spring 2023
